

Protection of life, health, safety and welfare of Arizona's most valuable assets.

## OSHA Truck Standards

### ***Feedback Requested***

Phoenix, AZ, 05/13/19 -

Dear Stakeholder,

The Occupational Safety and Health Administration (OSHA) is requesting stakeholder input regarding potential rulemaking to the powered industrial trucks standards used in the general, construction, and maritime industries.

OSHA is requesting information on: the types, age, and usage of powered industrial trucks; maintenance and retrofitting; how to regulate older powered industrial trucks; types of accidents and injuries associated with operating these machines; costs and benefits of retrofitting the machines with safety features; and other components of a safety program. OSHA will use the information received in response to this request to determine what action, if any, it may take to reduce regulatory burdens and create jobs while improving worker safety.

Comments must be submitted on or before June 10, 2019. For more information, see the [Federal Register Notice](#) and the OSHA [press release](#).
